General Notes on Chapter 11

- The concept of count vs. noncount nouns is often quite difficult for students to understand. Some students find it illogical. Many find it a confusing nuisance. Nevertheless, just as students need to gain understanding and usage ability of verb forms, they need to understand and be able to use noun forms if they want to communicate competently and correctly in English.

- In addition, article usage in English cannot make sense unless the students understand the distinction between count and noncount nouns. In many ways, the first half of the chapter seeks to lay the groundwork for the presentation of the bare-bones basics of article use in Chart 11-8.

- TERMINOLOGY: “Count” and “noncount” may also appear in some texts as “countable” and “uncountable.” A noncount noun is sometimes called a “mass” noun.
EXERCISE 1, p. 311. Preview: using A and AN. (Charts 11-1 and 11-2)

This previews not only a and an but count and noncount nouns.

ANSWERS: 4. Jack has a wallet in his back pocket. 5. (no change) 6. There was an earthquake in Turkey last week. 7. A ball is a round object. 8. (no change) 9. Anna is wearing a ring on her fourth finger. 10. (no change) 11. Simon Bolivar is a hero to many people. 12. . . . It was an honest mistake. 13. I had an unusual experience yesterday. 14. Ann had a unique experience yesterday. 15. (no change)

CHART 11-1: A vs. AN

- Discuss the pronunciation of a and an. When unstressed, they are pronounced as weak vowel sounds: /ə/ and /ə+n/. Only when they are emphasized are they pronounced /ey/ and /æn/.

EXERCISE 2, p. 312. A vs. AN. (Chart 11-1)

ANSWERS:
2. an 8. a 14. a
3. a 9. an 15. a
4. an 10. an 16. a
5. an 11. a 17. an
6. a 12. an 18. an
7. a 13. an

EXERCISE 3, p. 312. A vs. AN. (Chart 11-1)

Students needn’t produce dictionary-quality definitions. Students find their own creative ways of giving meanings. Keep the emphasis on article usage.

POSSIBLE DEFINITIONS:
1. An astronaut is a person who travels in outer space.
2. A microscope is an instrument that magnifies very small things.
3. An enemy is a person you fight against.
4. A ferry is a boat that carries people between short distances.
5. An absent-minded person is someone who is very forgetful.
6. A camel is a large animal that lives in desert regions and carries people and things.
7. An umbrella is something that people carry to protect themselves from rain.
8. A unicorn is a mythical animal with one horn.
9. An onion is a root vegetable.
10. A honeymoon trip is a trip newly married couples take.
11. An hourly wage is the amount of money a worker earns per hour.
12. A horn is something that grows on the heads of goats or cows.
   A horn is also a musical instrument.
13. An unlit hallway is a passageway without lights.
14. A utensil is a tool you use in the kitchen or the house.
15. An orchard is a field where fruit trees grow.
EXERCISE 4, p. 313. Count and noncount nouns. (Chart 11-2)

The purpose of Exercises 4 and 5 is to clarify Chart 11-2 by comparing “individual parts” to “wholes.” At the same time, the students are focusing on the troublesome final -s/-es. Usual problems in the usage of nouns are that the learners don’t use final -s/-es with count nouns when they should and do use it with noncount nouns when they shouldn’t. Tell your students you sympathize with them. It’s not easy.

ANSWERS:
3. (no change)
4. four chairs / some furniture
5. (no change)
6. some furniture / a chair
7. a chair / some chairs / some furniture
8. some furniture

EXERCISE 5, p. 314. Preview: count and noncount nouns. (Charts 11-2 and 11-3)

First the students learn which nouns are count and which are noncount. Once this information is known, they then (in the following exercises) decide which expressions of quantity they can use with these nouns. The purpose of these exercises is to clarify the use of indefinite articles, final -s/-es, and expressions of quantity used with two different kinds of nouns.

ANSWERS:
3. a (count) 7. some (noncount)
4. some (noncount) 8. an (count)
5. a (count) 9. some (noncount)
6. some (noncount) 10. a (count)
EXERCISE 6, p. 315. Count and noncount nouns. (Charts 11-2 and 11-3)

The troublesome final -s/-es is revisited. You might want to use this practice in class discussion to review pronunciation of final -s/-es. (See Chapter 6, Chart 6-1, p. 157, for information about pronunciation.) Omission of final -s/-es in speech and writing, even when the students understand the grammar thoroughly, may often be due to the fact that the learners don’t hear it clearly. Extra work on production of -s/-es can help reinforce habits of correct usage.

ANSWERS:
3. traffic / 11. songs
4. automobiles / 12. music /
5. scenery / 13. suggestions
6. mountains / 14. advice /
7. information / 15. literature /
8. facts / 16. novels
9. words / 17. sand /
10. vocabulary / 18. beaches

CHART 11-3: NONCOUNT NOUNS

- It is important for students to understand the concept of a noncount noun. That is the purpose of this chart. Discuss the concept in relation to some of the words listed at the bottom of this page, all of which are “wholes.”
- In addition to understanding the concept of a noncount noun, it helps if students simply become aware of some of the common nouns that are usually noncount. That is the purpose of the lists at the bottom of this chart and in the subsequent chart (11-4).
- It is strongly suggested that you wait until Chart 11-5 to discuss possible count usages of any of the words in this chart (e.g., works of art, the literatures of France and England, green peppers, the sands of time). Chart 11-5 deals briefly with that type of usage in a way appropriate to the students’ level.

EXERCISE 7, p. 316. Count and noncount nouns. (Charts 11-2 → 11-4)

ANSWERS:
3. weather /
4. storms
5. is . . . chalk /
6. wishes
7. luck /
8. Thunder . . . lightning /
9. Gold . . . is . . . Diamonds . . . are

11. ideas . . . opinions
12. patience /
13. patients
14. progress /
15. pollution /
16. bridges . . . rivers . . . bodies . . . water /

CHART 11-4: MORE NONCOUNT NOUNS

- This chart provides information for the students to use if and as they can; this information will have varying degrees of usefulness. The students do not need to memorize these noncount nouns, but the information can be quite useful for learners who already know and use many of these words. Students to whom much of the vocabulary is new may not benefit a great deal immediately in terms of appropriate use of noncount nouns in their own speech and writing. For them, it can serve principally as a reference when they attempt these exercises and the Workbook practices.

EXERCISE 7, p. 316. Count and noncount nouns. (Charts 11-2 → 11-4)

ANSWERS:
3. weather /
4. storms
5. is . . . chalk /
6. wishes
7. luck /
8. Thunder . . . lightning /
9. Gold . . . is . . . Diamonds . . . are
10. knowledge /

13. patients
14. progress /
15. pollution /
16. bridges . . . rivers . . . bodies . . . water /

146 CHAPTER 11, Count/Noncount Nouns and Articles
EXERCISE 8, p. 316. Noncount abstractions. (Chart 11-4)

This practice presents a few common sayings in English that the students might find interesting. These sayings illustrate the use of abstractions as noncount nouns. There is no reason to expect the students to know the proper completions; they may not have encountered these expressions before. Tell your students just to guess if they have never heard them. Use the practice as a springboard for a discussion of the students’ interpretations of and reactions to these sayings. Do they have similar sayings in their languages?

EXERCISE 9, p. 317. Noncount abstractions. (Chart 11-4)

The purpose here is for the students to reach for nouns that are abstractions. Most of the noncount nouns given in the answers below can be found in the list in Chart 11-4. Suggest that the students consult this chart.

SAMPLE ANSWERS:

a. 1. patience 2. honesty 3. courage 4. reliability 5. compassion 6. gentleness
   b. 1. greed 2. ignorance 3. jealousy 4. dishonesty 5. laziness 6. cowardice
   c. 1. good health 2. peace 3. prosperity 4. literacy 5. justice 6. freedom
   d. 1. hunger 2. poverty 3. disease 4. homelessness 5. violence
   7. progress

EXERCISE 10, p. 317. Count and noncount nouns. (Charts 11-1 → 11-4)

This exercise is intended to elicit nouns and quantifiers. Tell the students to complete the sentence “I see . . . .” when making their lists.

CHART 11-5: USING SEVERAL, A LOT OF, MANY/MUCH, AND A FEW/A LITTLE

- Using the classroom as your context, ask the students how many desks is “several desks.” How many desks is “a lot of desks”?
- You might mention that a lot of occurs principally in informal English. You might also mention that lots of is the even more informal equivalent of a lot of.

EXERCISE 11, p. 318. SEVERAL, A LOT OF, and MANY/MUCH. (Charts 11-1 → 11-5)

The sentence with the spelling error is number 11. Spelling “a lot” as one word is a common error.

ANSWERS: 3–5. (no change) 6. too many chairs 7. a little furniture
8. (no change) 9. some new furniture 10. (no change) 11. are a lot (spelled as two words) of desks 12. is a lot of furniture
EXERCISE 12, p. 319. HOW MANY and HOW MUCH. (Charts 11-1 → 11-5)

ANSWERS:
3. many players are there
4. much homework do you have
5. many apples are there
6. much fruit is there
7. many provinces are there
8. much Japanese did you know
9. many kinds of fish are there
10. much cheese should I buy
11. much coffee / many cups of coffee do you drink
12. much chalk is there / many pieces of chalk are there

EXERCISE 13, p. 320. MANY vs. MUCH. (Charts 11-1 → 11-5)

EXPECTED QUESTIONS:
1. How much tea do you usually drink every day?
2. How many words are there . . .?
3. How much (money) does a pencil cost?
4. How many bones are there . . .?
5. How many teeth does the average person have?
6. How much mail did you get yesterday?
7. How much sugar do you put in your tea?
8. How many languages can you speak?
9. How much English had you studied . . .?
10. How many people were there . . .?
11. How many human beings are there . . .?
12. How many butterflies can you see . . .?

EXERCISE 14, p. 320. A FEW vs. A LITTLE. (Charts 11-1 → 11-5)

NOTE: This text does not deal with the difference between a few vs. few or a little vs. little. See Chart 7-10 in Understanding and Using English Grammar, Third Edition.

ANSWERS:
3. a little help
4. a little pepper
5. a few things
6. a few apples
7. a little fruit
8. a little advice
9. a little more money
10. a few coins
11. A few friends
12. a little rain
13. a little French
14. a few more hours
15. a little toothpaste
16. a little more chicken
17. experience
18. a few chickens

CHART 11-6: NOUNS THAT CAN BE COUNT OR NONCOUNT

• The nouns presented here are but a drop in the bucket of those that have dual count-noncount usages. The intention is simply to introduce the students to the idea that such a possibility exists in English. Point out that they may find count vs. noncount information in their dictionaries. Again, the purpose in this text is to get across the concept of a noncount noun, for it is this concept that will serve the students well as they gain experience with English and expand their usage ability. The ultimate goal is for learners to use nouns as count or noncount as unthinkingly as a native speaker does. In the meantime, it helps them to pay a little special attention to this phenomenon in English. In this chart, discuss how the noncount usages deal with “wholes” and the count usages with individual items.

EXERCISE 15, p. 322. Nouns that can be count or noncount. (Chart 11-6)

ANSWERS:
3. time
4. times
5. papers
6. paper
7. a famous paper
8. works
9. work
10. light . . . gets . . . it
11. are . . . lights
12. hair . . . hair
13. hairs
14. glasses
15. glasses
16. glass
17. Iron is
18. Irons are
19. experiences
20. experience
Exercise 16, p. 324. Units of measure with noncount nouns. (Chart 11-7)

There may easily be more than one possible completion. Often only one is idiomatic (i.e., the expression a native speaker would typically use) or culturally appropriate in most English-speaking countries. For example, in item 1 it would be grammatically correct to say “a bag of olives” or “a box of olives,” but “can” and “jar” are the words idiomatically and culturally appropriate for quantifying olives.

Usual Completions (others are possible):

Exercise 17, p. 325. Writing activity: count and noncount nouns. (Charts 11-1 → 11-7)

The intention here is directed writing practice. Writing about food requires both count and noncount nouns.
### CHART 11-8: GUIDELINES FOR ARTICLE USAGE

- This chart presents the basics of article usage. It by no means covers the myriad uses of articles in English. Almost all students find article usage difficult to learn, and many teachers and textbook authors find articles difficult to teach. There are many idiomatic uses, complex patterns, intricate variations, and subtleties. Proficient use of articles can only come with experience over time. Tell your students not to get frustrated. Articles are just one small part of English.

- Most students need help with this chart; it contains too much information to be grasped independently. It is suggested that you combine an explanation of this chart with a discussion of the illustrations in Exercise 18, or even do Exercise 18 first, before looking at the chart.

- For more information about articles, see Charts 7-7 and 7-8 in the third edition of *Understanding and Using English Grammar*.

---

#### EXERCISE 18, p. 328. Count and noncount nouns. (Chart 11-8)

The key point the students need to understand from this exercise is that article usage often depends upon what the speaker assumes the listener is familiar with and is thinking about. If they have shared knowledge and are thinking about the same object or person, the speaker uses *the*.

#### EXERCISE 19, p. 330. THE vs. A/AN. (Chart 11-8)

Again the key point is what the speaker assumes the listener is familiar with and thinking about.

CHART 11-9: USING THE OR Ø WITH NAMES

• Using a world map, point to places and ask the students to identify them: That is the Nile River. That is Ø Brazil. That is Ø Beijing. Those are the Alps. Etc.

• American English uses a period at the end of abbreviated titles:
  Mr. Wang, Mrs. Doe, Ms. Jackson, Dr. Singh.

  British English does not use a period:
  Mr. Wang, Mrs. Doe, Ms. Jackson, Dr. Singh

EXERCISE 26, p. 338. Using THE or Ø with names. (Chart 11-9)

Refer students to the Workbook for practice with a wider variety of place names.

ANSWERS:
3. Ø . . . Ø  6. The . . . Ø . . . the
4. The  7. Ø
5. The . . . the  8. Ø . . . Ø

CHART 11-10: CAPITALIZATION

• One of the principal ideas for the students to understand from this chart is that nouns are capitalized when they are part of a name (i.e., a proper noun). The text does not use the term “proper noun.” You may decide to use it if it helps your class.

• This is a reference chart. You might want to proceed directly to the exercises, then refer to the chart as questions arise.

• Correct capitalization can be a problem in student writing. Some language groups, such as Spanish speakers, have different rules for capitalizing words; for example, words related to nationality are not capitalized in Spanish, but are in English. Some students from other language groups don’t consider capitalization important. It may be necessary to emphasize that proper capitalization is a value in English rhetoric, for it signals a writer’s competent, educated use of the language.
EXERCISE 27, p. 340. Capitalization. (Chart 11-10)

ANSWERS: 2. Do you know Richard Smith? He is a professor at this university. 3. I know that Professor Smith teaches at the University of Arizona. 4. The Nile River flows into the Mediterranean Sea. 5. John is a Catholic. Ali is a Moslem. 6. Anna speaks French. She studied in France for two years. 7. (no change) 8.
